

# BORROWING PLAYERS

## ONLY GAME

Players may only be borrowed from teams within the same club.

1. If a player is borrowed by another team, and it is the **ONLY** game she is playing on that play day, she may be borrowed from any team which is of a **lower grade in that age group** or from **any grade in any lower age group** which is eligible.  
However if a senior team already has two (2) 16/17-year-old players registered in that team they are not permitted to borrow any more players of those ages.
2. If the borrowed player is playing her **ONLY GAME** of the day in a higher team she is regarded as a full member of the team for that game and can be played even if the team has 7 or more of their original players. She can be used as a substitute if needed.
3. The borrowed players name must be written on the score sheet with her **registered team** and the words "**ONLY GAME**" recorded beside her name. Failure to do so will incur a loss of two points.

## 2ND GAME

Players may only be borrowed from teams within the same club.

1. A player can take part in a maximum of two competition games on any play day – the team in which she is registered and a team in a grade or age group for which she is eligible to be borrowed.
2. Junior Representative Players may only play a second game in a higher A grade team.
3. The player playing 2nd game (regardless of age) **must register at control, with their photo, before taking the court** for the borrowing team. If a photo (or if her photo is unavailable at control) a photo licence or official photo I.D. will be accepted. 8 or 9 years playing into 10s or 11s will not need a photo.
4. Teams may borrow as per the current 2nd Game Chart

**However** if a Senior team already has two(2) 16-17year old players registered in that team they are **not permitted** to borrow any more 16-17 year old players.

The 2nd game player can only play if the team that has borrowed her has less than seven (7) players capable of taking the court. The borrowed player's name must be one of only seven (7) names written on the score sheet and she must have her **registered team recorded beside her name.**

The **only** time a score sheet can have eight (8) names is if a 2nd game player goes on the court as one of the seven (7) players at the beginning of the game and an original team player who is capable of playing arrives late to the match. When the original team player arrives she **must** take the place of the borrowed player at the beginning of the next quarter. The borrowed player must take no further part in the game. **In this case you must note beside the name of the late arrival that she was late for the game.**

A 2nd game player cannot be put on the court at any time after the commencement of the game as a **substitute** (i.e. to replace a player injured or ill).

**However**, if the team is playing with less than seven (7) players she may take the court at any time up until  $\frac{3}{4}$ time providing that her name is one of only seven (7) on the score sheet.

**Any infringement of the 2nd game rule will result in a loss of two (2) points for the team who borrows the player, and the loss of all goals for, goals against will be recorded.**
